## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-20 allowed.
2. The following is an examiner's statement of reasons for allowance:

For claim 1, none of the prior art teach singularly or in combination for obtaining a load signal from apparatus associated with said rotating equipment which is indicative of whether the rotating equipment is loaded; sampling said electric signal when the rotating equipment is loaded over a predetermined sampling time interval to obtain a loaded electric signal  $V_L$ ; sampling said electric signal when the rotating equipment is unloaded over a predetermined sampling time interval to obtain an unloaded electric signal  $V_U$ ; and periodically displaying the relative magnitude between said loaded electric signal  $V_L$  and said unloaded electric signal  $V_U$  over an extended maintenance period of time, a maintenance inspection being required when the magnitude of the unloaded electric signal  $V_U$  exceeds the magnitude of the loaded electric signal  $V_L$ .

For claim 19, none of the prior art teach singularly or in combination for obtaining a load signal from apparatus associated with said rotating equipment which is indicative of whether the rotating equipment is loaded; calculating a range of average maximum and average minimum electric signal readings over a pre-selected sampling time interval for rotating equipment in a loaded condition; calculating a range of average maximum and average minimum electrical signal readings over a pre-selected sampling

time interval for rotating equipment which is not loaded; calculating the natural log of the ratio of an average loaded to average unloaded range value to define a condition index; periodically displaying the condition index over an extended maintenance period of time, a maintenance inspection being required when the condition index falls below a predefined threshold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
